D.	Fees	7
E.	Contact information	8

A. Non-binding Demand indications

The involved TSOs, eustream, a.s., Gas Connect Austria GmbH and Trans Austria Gasleitung GmbH have not received any non-binding demand indications for firm capacity at the interconnection points between the entry-exit system of eustream, a.s. and the entry-exit system of Gas Connect Austria GmbH and Trans Austria Gasleitung GmbH for any future period.

This analysis includes non-binding demand indications received within 8 weeks after the 6 April 2017 – entry into force of REGULATION EC 459/2017.

Therefore, the amount of 0 for non-binding demand indications has been used as a basis for this demand assessment.

B. Demand assessment

i. Expected amount, direction and duration of demand for incremental capacity

The received demand indications within the current incremental process between the entry-exit system of eustream, a.s. and the entry-exit system of Gas Connect Austria GmbH and Trans Austria Gasleitung GmbH are zero. The potentially available capacity (i.e. technical capacity which is not yet booked in the long term) for the requested period is currently sufficient to cover potential future need for capacity.

Capacity information can in general be found on the Transparency Platform.

C. Conclusion for the (non)-initiation of an incremental capacity project/process

According to the assessment result of the non-binding demand indications under point B, no demand levels for incremental capacity need to be developed and hence, no incremental capacity project will be initiated by the involved TSOs.

Based on the aforementioned decision, no technical studies for incremental capacity projects will be conducted.

D. Fees

The three involved TSOs did not introduce a fee for the evaluation and processing of non-binding demand indications.
