

Press Release

Changes in ENTSOG: – New business area managers appointed

(Brussels, 18 December 2013, PR053-13) After today's meeting of ENTSOG's General Assembly also the second change on the level of business area managers in this year has got its approval. Already in September 2013 the first change took place. With **Oliver Lebois** following Andrea Čirličová the ENTSOG business area "System Development" got a new head. Olivier who is seconded from the French TSO GRTgaz has been working as an adviser for ENTSOG since 2010.

Today **Jan Ingwersen** was appointed as new business manager in ENTSOG's market area as of 1 January 2014. The new manager is seconded from the Danish Power and Gas Transmission System Operator (TSO) "Energinet.dk". He follows Nigel Sisman who was in that position since the formation of the organisation.

Vittorio Musazzi, ENTSOG General Manager, said, *"With his widespread personal network within the European gas sector and his eligible background I am confident, that Jan's work will continue contributing to the ENTSOG approach of open and transparent dialogues with all our stakeholders. –Olivier Lebois is already well known to our team. He and his work will now be even more visible; especially when it comes to public consultations and workshops with our stakeholders."*

The changes became necessary as both secondment periods have ended.

Should you require any further information please contact Armin Teichert (+32 2 894 5100, media@entsog.eu).

Editorial notes

- > ENTSOG was founded on 1 December 2009 in line with Regulation (EC) 715/2009. The current number of Members, Associated Partners and Observers can be found [under this link](#).

- > In line with Articles 6, 7 and 8 of the Regulation (EC) 715/2009, ENTSOG has the task of formulating network codes in a number of areas and of adopting various communications: a non-binding community-wide Ten-Year Network Development Plan on biennial basis; Winter and Summer Supply Outlooks; common network operation tools; recommendations relating to the coordination of technical cooperation between community and third-country-TSOs; annual work programmes and annual reports.
