

## ENTSOG Publication

To ensure the project data are updated at least once per TYNDP or GRIP Publication, ENTSOG will, once per publication, reset the project data status to "Draft". Project having "Draft" status are not taken into account in a publication. All that is needed for project to be approved is that is saved or re saved for a given publication and that all the controls are passed. If your project is not approved, that is because some control were not passed. Please re check the form.

Comments on the Project in the context of the current publication.

## Legal Notice

By clicking here, the Project Promoter, hereby acknowledges, confirms or undertakes as relevant:

- 1) that the Project is submitted in the name and on behalf of the Project Promoter as identified in this form;
- 2) that the only mission of ENTSG, in the framework of the Projects data collection, is to provide the Project Portal for the data collection procedure, this mission including the issuance by ENTSG of understandable explanation in the form of the Project Submission Handbook and other Supporting Documents;
- 3) that ENTSG has provided all necessary means within the Project Portal to enable the Project Promoter to monitor the integration of the Project submissions;
- 4) that it has read and understood the Project Submission Handbook and the other supporting documents made available by ENTSG as well as the ENTSG "Practical implementation document for developing the 10-year network development plan (TYNDP) 2018" and is aware of the consequences resulting from this documentation;
- 5) that the information submitted by the project promoters will be treated in accordance with the applicable regulations as well as with the ENTSG "Practical implementation document for developing the 10-year network development plan (TYNDP) 2018"
- 6) that the related data hereby submitted is exhaustive, accurate and up-to-date at the moment of the data submission and that ENTSG cannot be held liable for the failure of the accuracy, the correctness and/or the completeness of the data submitted via the Project Portal which is not attributable to ENTSG. The Promoter consequently undertakes to indemnify, hold harmless and defend ENTSG from and against any claim, demand, cause of action, expense or liability arising out of any not exhaustive, not accurate and not up-to-date data submission which was directly and solely attributable to the Promoter;
- 7) to submit and/or modify data during the scheduled data collection timeframe;
- 8) to actively monitor its data submissions and takes corrective actions in line with the automatic messages received within the Portal, resulting from the predefined Validation Rules (part of the Project Submission Support Documents);
- 9) to take corrective actions when ENTSG contacts by e-mail the Promoter with explanation by ENTSG of the observed inconsistency or error based on the part of the Monitoring Activities (part of the Project Submission Support Documents) ENTSG undertakes to check;
- 10) to be aware (i) how ENTSG models the Promoter's topology in the network model, by checking the Report on Operator Topology and (ii) of the possibility to contact ENTSG as defined in the Project Submission Handbook, should the topology deemed to be inappropriate;
- 11) to be aware of the result of its capacity submission before and after the application of the lesser-of-rule (LoR) by checking the Reports Capacities Before/After LoR. It will in particular actively monitor the projected capacities resulting from the Project Promoter's data submission within the Data Portal for the duration of ENTSG data collection exercises and to take action in the form of coordinating with the adjacent operator(s) and/or adjusting the submitted data when deemed necessary by the Project Promoter and adjacent operator(s), in order to reduce as far as possible any mismatch in projected capacity between the Project Promoter and adjacent operator(s) if applicable;
- 12) that ENTSG cannot be held responsible in any way whatsoever for any impacts which may derive from the decisions of any bodies/authorities taken on the basis of the analysis prepared by ENTSG and realized with data submitted through the Project Portal;
- 13) that the registered User will be required to provide personal data for administrative purposes only and for the purposes of infrastructure project data submission related issues. Any personal data will be used by ENTSG to the extent legally authorised and complying with the law. ENTSG will not use any personal data supplied for the above purpose for any marketing or sales activities or release the data to a third party;
- 14) that the information submitted by the project promoters will be treated accordingly with the provision of the ENTSG "Practical implementation document for developing the 10-year network development plan (TYNDP) 2018". However, with regards to CAPEX and OPEX information, ENTSG shall disclose such data if required by Court. In this case ENTSG will inform as soon as possible the Promoter of that request and of the concerned data;
- 15) that, unless differently specified in the ENTSG "Practical implementation document for developing the 10-year network development plan (TYNDP) 2018", information and data submitted through this Project Portal in the framework of Regulations 715/2009 and 347/2013 will be treated as non-confidential by nature, will be published in the TYNDP, as it has been the case during previous TYNDPs as well and could be transmitted to ACER, EC and NRAs as the case may be.
