

Regional Coordination (ReCo) System for Gas

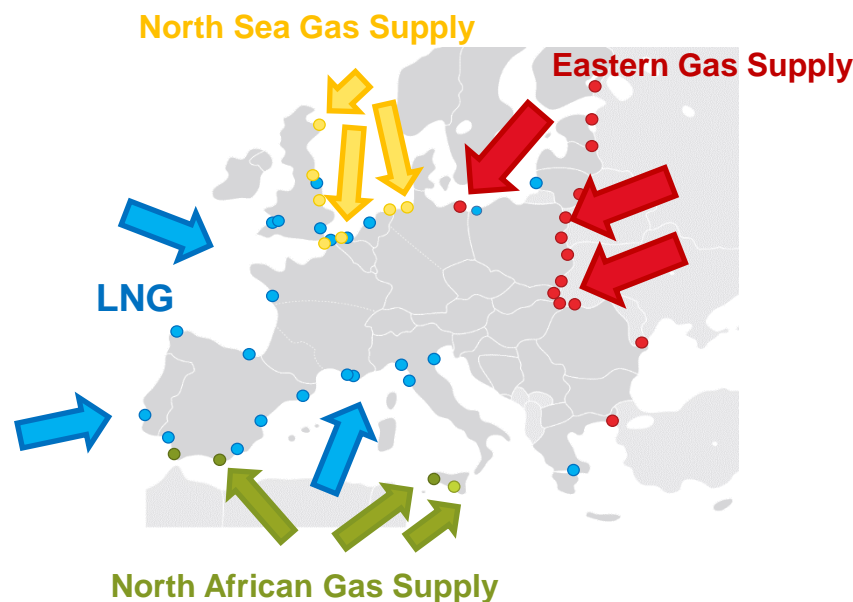

Overview

Anton Kolisnyk
Adviser, System Operation

ReCo System for Gas – Main objectives

- A broader vision of all gas flows entering the EU MS
- European TSOs and EU aim to enhance the level of Security of Supply in crisis situations
- Improving international cooperation in a crisis situation
- Exchange of information including gas supply flows in a crisis situation

Legal Background for the ReCo System for Gas

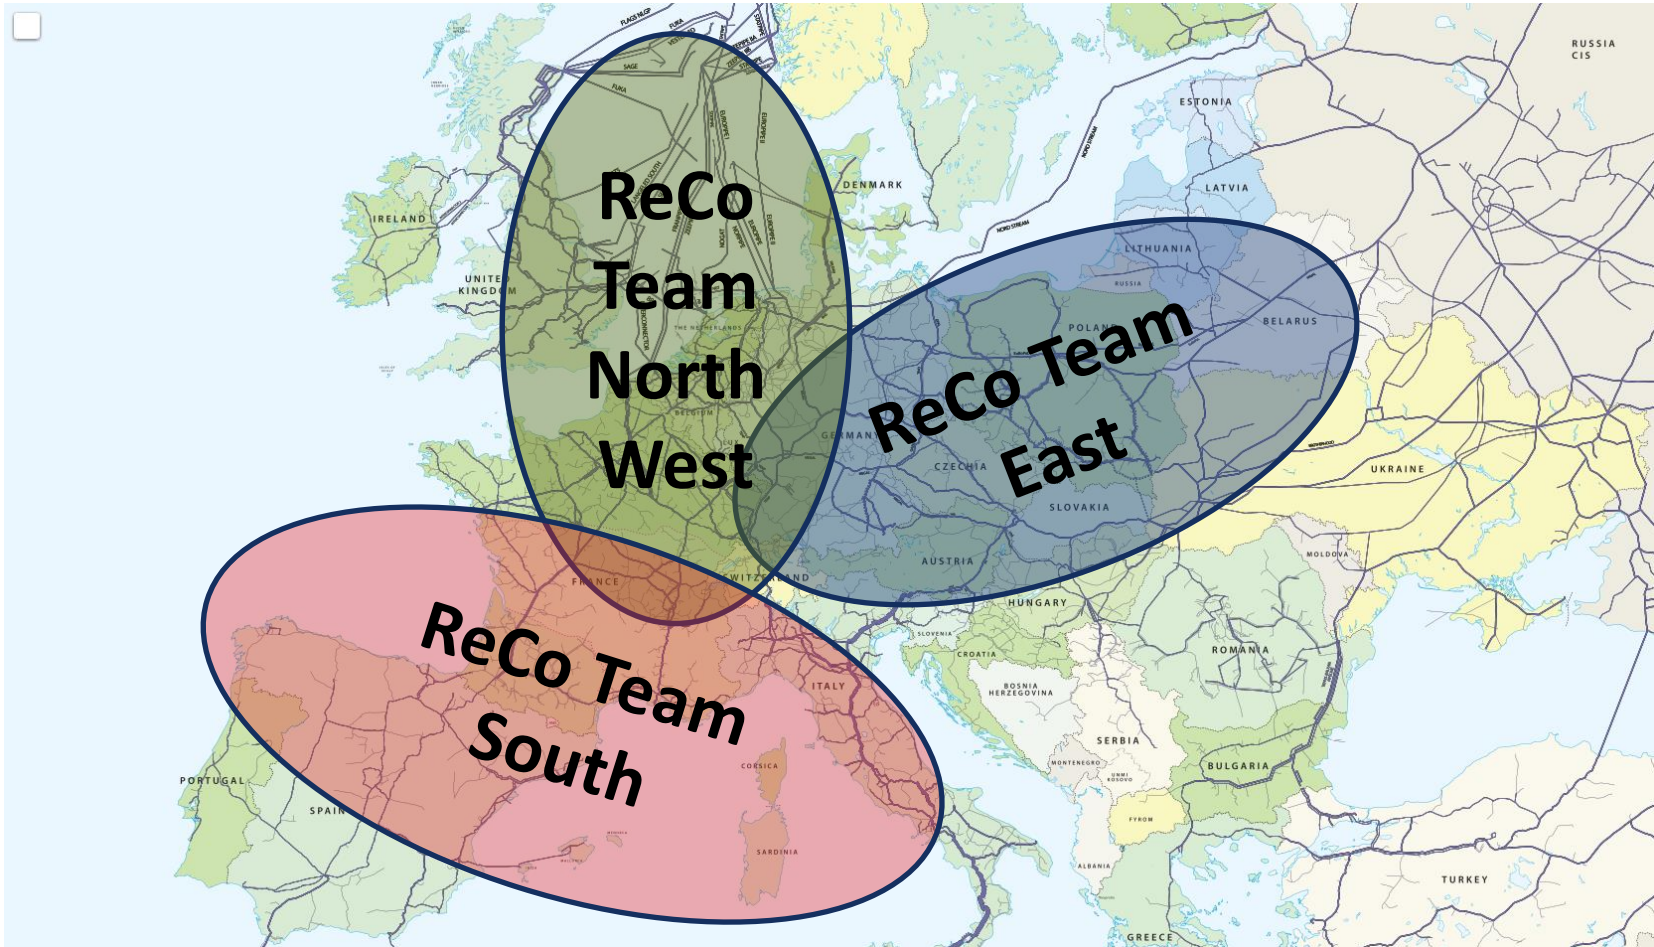

SoS Regulation 2017/1938

“Article 3.

Responsibility for the security of gas supply

6. In the event of a regional or Union emergency, the transmission system operators shall cooperate and exchange information using the ReCo System for Gas established by ENTSOG. ENTSOG shall inform the Commission and the competent authorities of the Member States concerned accordingly.”

ReCo Teams (1)

Each ReCo Team is a community of TSOs for one of the supply corridors, and includes TSOs from the relevant gas supply risk groups defined in Annex 1 of Regulation 2017/1938 as well as other TSOs if reasonable.

ReCo Teams (2)

Functioning of the ReCo System for Gas

- **TSOs follow agreed guidelines and incident classification scale**
 - Inform ReCo Team TSOs about incidents via e-mail
 - Call a joint ReCo Team virtual meeting
- **Each ReCo Team has a facilitator**
 - Fixed telephone number and e-mail
 - 24/7 reachability
 - teleconference application
 - Getting the ReCo teams members together at short notice by establishing virtual meeting
- **At each meeting one TSO is given the role of a coordinator**
- **Communication with the European Commission (EC) and Gas Coordination Group (GCG)**

ReCo Teams (3)

ReCo Team North West

Facilitator	Period
Thyssengas	06/2017 - 06/2019
Ontras	06/2019 - 06/2021

25 TSOs
13 Countries

ReCo Team South

Facilitator	Period
Enagas	03/2017 - 03/2019
SNAM	03/2019 - 03/2021

14 TSOs
9 Countries

ReCo Team East

Facilitator	Period
OGE	11/2017 - 11/2019
Fluxys	11/2019 - 11/2021

30 TSOs
20 Countries

48 TSOs from 28 countries (25 EU) are represented in at least one of the 3 ReCo Teams

ReCo Teams (4)

Aim

- Avoid, prevent or mitigate negative impact of gas disruptions on a regional or European-wide level due to any technical, operational or other reason.
- To be well prepared for any possible crisis situation

ReCo Teams as a Tool

- Fast and reliable information exchange between TSOs which could be impacted by any possible crisis event
- Joint cooperation between TSOs, listening to each other and trying to find mutually agreed solutions

Result

- Broader scope and detailed information about the reason and impact of a crisis situation
- Information provision to relevant stakeholders
- Possible application of mutually agreed solutions in order to delete the negative impact of the crisis situation or to mitigate them

ReCo Teams (5)

Members

- Participation in the teams is open for all TSOs in the corresponding gas supply corridor

Facilitator

- Each ReCo Team has the facilitator which is the first TSO to be contacted in case of a crisis event
- The facilitator establishes a communication session for the ReCo Team in case of request or crisis and invites TSOs to participate
- The facilitator carries out communication exercises with the members of the ReCo Team

Coordinator

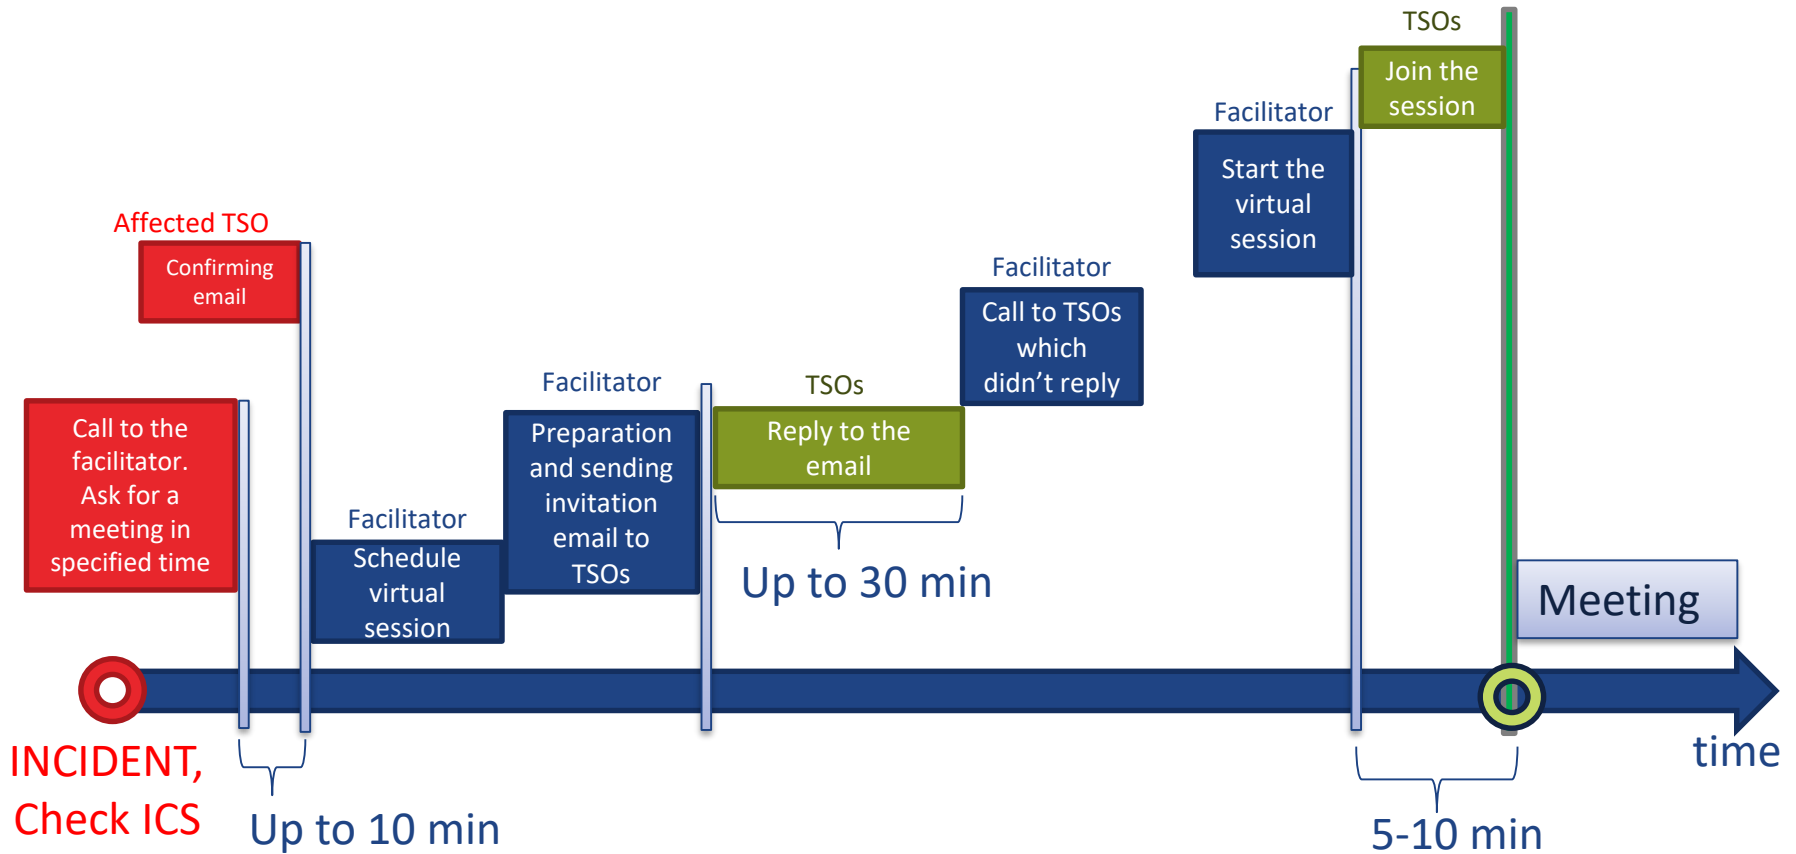

- The coordinator is chairing the ReCo Team whenever it comes together
- The coordinator acts as the spokesman of the ReCo Team in order to provide first-hand information
- This role will be allocated to one of the TSOs when ReCo team comes together

ENTSOG

- ENTSOG organises meetings for the experts and for changing the facilitators, prepare presentations and Terms of Reference for the ReCo Teams
- ENTSOG provides tools for communication between TSOs

ReCo Team Meeting. High Level Setup

Communication with EC in case of incidents

ReCo team meeting

After the meeting
