Project groups :

Aggregation

when two investments submitted by different promoters are part of the same projects, ENTSG has modelled them taking into account the maturity status of the project having the least mature status (for example: project 034 is non-FID since among the projects composing it there is at least one having non-FID status. The following rule is applied: non-FID > Advanced > FID)

Project status codes :

Final Investment Decision status

Advanced status is applied to all projects that, based on the information submitted, have:

- commissioning year expected at the latest by 31st December of the year of the TYNIP project data collection + 6 (e.g. 2024 in case of TYNIP 2018, for which projects are collected in 2018)

- and whose permitting phase has started ahead of the TYNIP project data collection - OR - FEED has started (or the project has been selected for receiving CEF grants for FEED ahead of the TYNIP project data collection)
