

KEYS

- Cross-border points / intra-country or intra balancing zone points**
- Cross-border interconnection point within Europe or export point to non EU country
 - Cross-border interconnection point within Europe or export point to non EU country Under construction or Planned
 - Third country cross-border interconnection point
 - Cross-border third country (import) Under construction or Planned
 - Intra-country or intra balancing zone points

Project status

- FID projects
- Non-FID, advanced projects
- Non-FID, non-advanced projects

Transport by pipeline

- Diameter < 600 mm
- Diameter 600 - 900 mm
- Diameter > 900mm
- Pipeline project
- Compressor station

Storage facilities

- Acquirer
- Salt cavity - cavern
- Depleted (Gas) field on shore / offshore
- Other type

LNG Terminals and Plants

- LNG Terminals' entry point into transmission system
- Operational
- LNG Plants' export point

Project Data :

Project not (yet) marked on map				
TRAF-902	Project name	eastern	FID	
TRAF-918	Project name		FID	
Project ENTSG code	Project Promoter	Project status code		

Project groups :
Aggregation when two investments submitted by different promoters are part of the same projects, ENTSG has modelled them taking into account the maturity status of the project having the least mature status (for example: project 034 is non-FID since among the projects composing it there is at least one having non-FID status).
The following rule is applied: non-FID > Advanced > FID

FID	Advanced	Non-FID	Final Investment Decision status
-----	----------	---------	----------------------------------

Advanced status is applied to all projects that, based on the information submitted, have:
- commissioning year expected at the latest by 31st December of the year of the TYNIP project data collection + 6
(e.g. 2024 in case of TYNIP 2018, for which projects are collected in 2018)
- and whose permitting phase has started ahead of the TYNIP project data collection - OR - FEED has started
(or the project has been selected for receiving CEF grants for FEED ahead of the TYNIP project data collection)
