

**Demand assessment report
for incremental capacity
between *Polish gas transmission system* and
Slovak gas transmission system
where no non-binding demand indications
were received**

2019-10-21

Demand assessment report for the incremental capacity
between the Poland and Slovakia

This report is a joint assessment of the potential for incremental capacity projects conducted by

GAZ-SYSTEM S.A.

A. Non-binding Demand indications

The involved TSOs, GAZ-SYSTEM and eustream, have not received any non-binding demand indications for firm capacity between the entry-exit system of GAZ-SYSTEM and the entry-exit system of eustream for any future period.

The following periods have been included in this analysis:

- a) non-binding demand indications received within 8 weeks after the 1 July 2019
- b) non-binding demand indications received later than 8 weeks after the 1 July 2019, which would have been considered in the current incremental capacity cycle.

Therefore, the amount of 0 for non-binding demand indications has been used as a basis for this demand assessment.

B. Demand assessment

i. Expected amount, direction and duration of demand for incremental capacity

The received demand indications within the current incremental process between the entry-exit system of GAZ-SYSTEM and the entry-exit system of eustream are zero.

The PL-SK interconnector is currently under construction with a plan to be finalized in the end of 2021. The projected transmission capacity is 4.7 bcm/year in the direction SK-PL and 5.7 bcm/year in the direction PL-SK.

C. Conclusion for the (non)-initiation of an incremental capacity project/process

According to the assessment result of the non-binding demand indications under point B, no demand levels for incremental capacity need to be developed and hence, no incremental capacity project will be initiated by the involved TSOs.

Based on the aforementioned decision, no technical studies for incremental capacity projects will be conducted.

D. Fees

GAZ-SYSTEM

GAZ-SYSTEM did not introduce a fee for the evaluation and processing of non-binding demand indications.

eustream

Eustream did not introduce a fee for the evaluation and processing of non-binding demand indications.
