

Press Release

ENTSOG appoints new General Director as of 1 January 2022

(Brussels, 25 November, PR0285-21) **ENTSOG's General Assembly has appointed Piotr Kuś as incoming General Director of ENTSOG for the term of January 2022 until December 2024, replacing Jan Ingwersen in his current role.**

Since 2017, Piotr has been Deputy Director of the Gas Market Development Division in GAZ-SYSTEM S.A., a gas transmission system operator in Poland and Member of ENTSOG. Piotr joined GAZ-SYSTEM in 2008, where he was responsible for EU and regulatory affairs, International Cooperation and a number of business development projects.

Piotr commented on his upcoming role, *"It is a great honour to be elected to this position, and I am ready for the challenges that lie ahead in this time of exciting change for the European gas transmission system operators. I look forward to working together with the ENTSOG Board and Members to facilitate the next steps in the energy transition journey."*

Jan Ingwersen has been ENTSOG General Director since January 2016, starting in the position of ENTSOG Business Area Manager for Market in January 2014. Jan is seconded from the Danish gas and electricity transmission system operator, Energinet.

Current ENTSOG President Bart Jan Hoevers wished to convey his heartfelt thanks to Mr. Ingwersen, saying, *"Jan has been a valued leader of the ENTSOG team over the past six years, and ENTSOG team member since 2014. His commitment in facilitating Europe's competitive energy market and security of energy supply is very much appreciated by the Members, as well as his support of the Green Deal commitments, as evidenced in the development of ENTSOG's 2050 Roadmap for Gas Grids. I extend my sincerest thanks for the hard work and dedication and wish Jan all the best in his next endeavors."*

The election of the new ENTSOG President and ENTSOG Board for the period 2022-2024 will take place at the General Assembly in December 2021.

Editorial notes

- > **The European Network of Transmission System Operators for Gas (ENTSOG)** was founded in line with Regulation (EC) 715/2009 and has played a key role in facilitating integration of the European gas markets, ensuring technical interoperability and providing security of supply by gas infrastructure planning. Looking forward, ENTSOG is contributing to the net-zero decarbonisation by 2050, in particular, by the integration of renewable and low carbon gases via future-proof gas transmission pipelines, in line with the EU energy and climate goals. More information on ENTSOG can be found on our website – www.entsog.eu or contact info@entsog.eu.
