

## *Press Release*

### ***ENTSOG invites stakeholders to participate at its draft TYNDP 2022 workshop on 25 April 2023***

(Brussels, 17 April 2023, PR0291-23) **Stakeholder consultation for the draft TYNDP 2022 commenced on 11 April and will continue until 19 May 2023. For the first time, this ‘Hydrogen and Natural Gas TYNDP’ includes a dual gas system modelling approach that considers hydrogen and methane networks simultaneously, following contrasted scenarios reflecting the European climate and energy ambitions.**

The TYNDP 2022 (Executive Summary, Reports and Annexes) was published on 11 April and is available for review at the ENTSOG website, [here](#). **Stakeholders can provide feedback using the public [feedback form](#) until 19 May 2023.**

To assist with gathering stakeholder feedback during the consultation process, ENTSOG is organising a workshop to present and exchange views on the draft TYNDP 2022 on **25 April from 10:00 to 13:00 CET**. This workshop will be in hybrid format and stakeholders are asked to indicate their intention to join in-person at the ENTSOG office, or online, during registration.

**Registration to join the workshop is possible at the event page, [here](#).**

#### **Editorial notes**

- > **The European Network of Transmission System Operators for Gas (ENTSOG)** was founded in line with Regulation (EC) 715/2009 and has played a key role in facilitating integration of the European gas markets, ensuring technical interoperability and providing security of supply by gas infrastructure planning. Looking forward, ENTSOG is contributing to the net-zero decarbonisation by 2050, in particular, by the integration of renewable and low carbon gases via future-proof gas transmission pipelines, in line with the EU energy and climate goals. More information on ENTSOG can be found on our website – [www.entsog.eu](http://www.entsog.eu) or contact [info@entsog.eu](mailto:info@entsog.eu).
