

ENTSOG IS RECRUITING!

We are seeking a candidate for the ENTSOG System Operations Team

BUSINESS DATA ANALYST

THE ROLE OF ENTSOG

ENTSOG has been established to **facilitate and enhance cooperation between national gas transmission system operators (TSOs)** across Europe to meet European Union energy and climate goals. Its objectives are to promote the completion of the internal market for gas and stimulate cross-border trade, ensure the efficient management and coordi-

nated operation of the European gas network, and facilitate the European network's sound technical evolution. **ENTSOG offers a diverse office environment with colleagues from all over Europe and a workplace culture that promotes positivity, mutual respect and open communication and collaboration.**

ABOUT YOUR ROLE AS BUSINESS DATA ANALYST

The ENTSOG System Operations Area facilitates the implementation and monitoring of key EU legislation and contributes to further developing the EU legislation in the areas of interoperability, security of gas supply and transparency.

In your new role, you will be working with several teams, contributing to our work within the whole System Operations Area. You will support the Gas Quality, Transparency, REMIT and security of gas supply activities including development of our data warehouse, the Transparency Platform, data dashboards and other deliverables.

APPLY NOW - INTERVIEWS WILL BE TAKING PLACE CONTINUOUSLY IN NOVEMBER 2023!

CANDIDATE REQUIREMENTS

The Candidate will be **based in Brussels**, but ENTSOG will consider offering flexible work hours or remote work options when feasible. ENTSOG expects the candidate to be ready to **start as soon as possible, at the latest during Q1 2024**.

Appointees from ENTSOG members will be seconded based on a contract between ENTSOG and the seconding TSO, usually for a period of 2 or 3 years.

SOME OF THE KEY RESPONSIBILITIES OF THIS ROLE INCLUDE:

- Support members in analysing published data, including consolidation of data for visualisation tools and dashboards in tools like T-SQL/SSRS Queries and Power BI,
- Monitor the performance of the Professional Data Warehouse, Transparency Platform and Registered Reporting Mechanism (RRM) data transfers in collaboration with the IT team,
- Facilitate new queries and user-friendly reports for members and externals (e. g. the European Commission and other EU institutions) as business owner and liaise with IT providers,
- Facilitate detailed functional specifications for new tools (incl. for data analysis) and cooperate with external providers,
- Support members in data publications, including master data management, troubleshooting of files and general data processing queries,
- Support other team members with maintenance and improvements to existing reports and dashboards.

Example of a typical development task: Initiate preliminary discussions with end-users and data experts to establish a project scope. Prepare the specification including considering visual mock-ups. After a scope-check, the candidate would be setting up relevant data streams, testing the GUI and datasets in collaboration with end users and finetuning the results. Finally, documenting the results is done in collaboration with data experts.

CANDIDATES SHOULD HAVE:

- Experience in developing custom queries and reports in advanced MS Office tools including PowerBI and T-SQL/SSRS Report builder,
- Strong proficiency in English, written and spoken, knowledge of French would be considered a plus,
- Experience in development and support of tools for data publication and analysis. Experience in working with XMLs incl. XSD restrictions would be a plus,
- Excellent organisational skills, preferably including project management,
- Knowledge of Mongo DB queries and Azure Factory or similar would be considered a plus,
- A team player character and collaborate naturally with colleagues and external stakeholders as tasks are mostly developed together with others,
- Ability to visualise and promote solutions to complex cross-sectoral issues,
- Strong work ethic and associated flexibility to cope with demanding timelines and work pressures.

CONTACT INFORMATION

A CV, a TSO support letter, any other supporting material from candidates should be sent by email to:

▲ careers@entsog.eu

Please submit your application as soon as possible not later than 24th November 2023.

The interviews will take place in November or early December 2023 through Microsoft Teams or at ENTSOG's office in Brussels.

If you have any questions in relation to this position, please contact:

▲ Director for System Operations
Hendrik Pollex (hendrik.pollex@entsog.eu)

If you would like to ask question or clarification in relation to the Secondment Contract, please contact:

▲ **Agata Musial** – Finance & Admin Manager
(agata.musial@entsog.eu)

PLEASE NOTE

The personal data of the candidate will be used by ENTSOG for recruitment purposes only (and in no case for commercial and/or marketing purposes) and will in no case be disclosed to any third party without the prior consent of the candidate. Such personal data may be kept by ENTSOG for a duration of maximum 3 years for recruitment purposes only in case a new vacancy may be of some interest for the candidate.

Please, join to the application the following written consent: "I understand and I agree that ENTSOG is processing my personal data for recruitment purposes and I consent that ENTSOG is keeping my data for future vacancies. By sending the CV, I accept/agree with the **Data Privacy Policy**."
