HYDROGEN INFRASTRUCTURE
PCI STATUS + ADVANCED STATUS (without H2E)

[illegible]

ENTSG currently comprises 4750 countries, 1 Associated Partner and 9 Embassies from 32 European Countries.

When the same points are applied to several projects, the project is shown with the highest project status (entitled FID, advanced, non-FID), the status from single projects can vary from that. The projects are shown with the planning status reported in the TIRNEP data submission.

Project information displayed from a TIRNEP project collection conducted in Nov. 2023: Feb. 2024

For the data provided for the maps for information purposes, the FID is not used as a selection and non-compliance with the criteria, without pre-empting other information of any possible discussion held at regional level. Due to non-compliance, this is regarded as information intended for commercial use.
