# ENTSOG TASKS AND DELIVERABLES REGULATION EU 2024/1789

#### **ARTICLE 26**

#### **ARTICLE 29**

#### Stakeholder consultations

for network codes, the draft TYNDP for natural gas and the annual work programme

# Elaborate any **network codes** requested by EC

Adopt **CNOTs** to ensure the coordination of network operation in normal and emergency conditions

## Adopt **TYNDP for natural gas**

including a European supply adequacy outlook (of natural gas network) and monitoring of progress on the annual production of sustainable biomethane)

Adopt recommendations relating to coordination of **technical cooperation between EU and third-country TSOs** 

Adopt recommendations to TSOs on **technical coopera- tion with DSOs and HNOs** 

Adopt an **annual work programme** (incl. list &
description of the network
codes to be prepared, a plan
on coordination of the operation of the network, and list of
R&D activities)

Adopt an **annual report** including results of the analysis the implementation of the NCs and GLs adopted by EC and quantity of renewable and low-carbon gas injected into natural gas network

Adopt a gas quality monitoring report by 1 January 2025 and every two years after

Adopt annual summer and winter supply outlooks

Monitor and analyse the implementation of the NCs and GLs adopted by EC

#### **ARTICLE 61**

During the transitional period until **1 January 2027**, develop the **2026 TYNDP for hydrogen**, with the full involvement of hydrogen transmission network operators and together with ENNOH

#### **ARTICLE 71**

Establish joint ENTSOG/ ENNOH network code on value of transferred assets and dedicated charge

#### **ARTICLE 84**

#### Article 7 of Reg. 2017/1938

Carry out a Union-wide simulation of gas supply and infrastructure disruption scenarios, including scenarios of a prolonged disruption of a single supply source.

#### **ARTICLE 86**

### Article 11 of Reg. 2022/869

By 31 October 2025, ENTSOG, ENTSO-E and ENNOH submit to EC and ACER a consistent and progressively integreted model to be periodically updated

### Article 12 of Reg. 2022/869

Develop Scenarios for the ten-year network development plans

# Article 13 of Reg. 2022/869

Publish Infrastructure gap identification report developed within the framework of the Union-wide ten-year network development plans.

# ANNEX I: GUIDELINES

Gas TSOs to publish new gas quality transparency parameters (which requires ENTSOG to upgrade Transparency Platform in preparation for the new parameters).

Not specified

(Annually)

Biannually
