<b>Name</b>	<b>Jean-Louis MARTINAUD</b>

<b>Q1: Does the programme identify the correct projects for ENTSOG's focus in the 2014 AWP?</b>	
<b>YES X</b>	<b>NO</b>
<b>Further comments</b>	

**Q2: Are there any other activities that should displace the focus areas identified?**

YES X

NO

**If „YES“, what other priorities should be addressed?**

We believe that ENTSOG needs to build into its priorities a “compatibility” check between the different network codes which should be discussed with ACER.

Cost benefit analysis are also suggested many times as a determining factor in some Network Codes. Also for this aspect, we would appreciate it if ENTSOG could set up a dedicated stakeholder group in conjunction with ACER where the methodology principles could be discussed.

**Which elements of the plan should be displaced?**

**Q3: Are the objectives and deliverables associated with each plan realistic?**

YES X

NO

**Further comments**

GDF SUEZ particularly appreciates ENTSOG working method and consultations of stakeholders.

We would like to emphasize the necessity for ENTSOG - before ACER sets the definitive text of the framework guidelines - to better take into account the interests of the stakeholders, specially when a general agreement among all stakeholders may be found on an issue.

ENTSOG encourages stakeholders to provide any additional feedback on any of the plans to help us

in shaping the development of all our processes.

ENTSOG welcomes comprehensive feedback as critical part of ENTSOG Work Programme and appreciates your effort and time spent to complete this form.
