ENTSOG Capacity

Network Code on Capacity Allocation

Frank Roessler
Subject Manager

CAM NC Kick-Off meeting – 9th February 2011
Purpose of General Project Plan

1. Planning the twelve months
   • Describe the timely steps, milestones and deliverables
   • Stakeholder interaction (SJWSs and consultations)

2. Market engagement
   • Engage stakeholders throughout the whole process
   • Use today to foster interaction with market parties
   • Users to commit to the process
ENTSOG Capacity Work Group

Internal organisation of the work

- Project Plan KG
- Experts KGs
  - Adjacent TSO Coordination KG
  - Allocation Method KG
  - Interruptible Capacity KG
- Market Integration KGs
  - Analysis and Content KG
  - Other ENTSOG Work Areas
- Consolidation and Editing KG
  - Admin KG
  - Stakeholders

Stakeholders
ENTSOG General Assembly
ENTSOG Board
ENTSOG CAP WG
NC Development
Project Plan KG
Experts KGs
Market Integration KGs
Consolidation and Editing KG
ENTSOG and the market need to manage the time constraints
Key Deliverables

Project Management
• Draft Project Plan

Launch Documentation
• Final Project Plan to be refined after consultation including initial considerations of the pilot CAM network code

SJWS & Bilateral meetings with Stakeholders
• For each SJWS: invitation, agenda, supporting material and minutes
• Bilateral and group meeting material as agreed between the parties

Network Code
• Draft version submitted for consultation by the market
• Consultation Responses Analysis Report
• Final CAM NC approved by ENTSOG for recommendation to ACER
Network Code Engagement Process

Phases of the CAM NC Development

- Detailed internal planning done to underpin the phases
- Uncertainties in the process
  - Parallel entering into force of ACER and new consultation
  - Unknown outcome from debate on Target Model
  - Parallel work on other code areas (balancing, tariffs, interoperability)
  - GRI development
  - Commitments
Project Plan Consultation

Consultation on the planning

• Response form in Appendix of Project Plan

• Market to provide view on planned:
  o Steps
  o Milestones
  o Deliverable
  o Schedule – phases, meetings etc.
  o Stakeholder engagement – consultations and sessions

• Please provide us with your opinions by the 23rd of February

Work shop planned to discuss responses on the 9th of March
Project Plan Consultation

Market participant’s commitment

- Engagement of the market is critical for the NC development

Welcome to ENTSOG.
European Gas TSOs working towards the delivery of the single European gas market.

The European Network of Transmission System Operators for Gas (ENTSO-G) works to promote the completion and functioning of the internal market and cross-border trade for gas and to ensure the optimal management, coordinated operation and sound technical evolution of the European natural gas transmission network.

Capacity Allocation Network Code process launched
Click here for supporting material
In September 2009 the European Commission has officially invited ERGEG to develop a Framework Guideline on Capacity Allocation. ENTSOG is taking the steps towards the drafting of the Network Code on Capacity Allocation by fostering the dialogue between the Users, ERGEG and European Commission.

This website provides relevant information, documents (comprising position papers and consultation material) throughout all processes.
