

Auction Calendar 2015 for Capacity Allocation Mechanism Network Code

EXPLANATORY NOTE/DISCLAIMER

The Network Code on Capacity Allocation Mechanisms in Gas Transmission Systems (CAM NC) was adopted as a European Commission Regulation under the reference COMMISSION REGULATION (EU) No 984/2013 of 14 October 2013.

The CAM NC contains a definition for 'auction calendar,' as follows:

'a table displaying information relating to specific auctions which is published by ENTSOG by January of every calendar year for auctions taking place during the period of March until February of the following calendar year and consisting of all relevant timings for auctions, including starting dates and standard capacity products to which they apply.'

Such definition creates therefore an obligation on ENTSOG as from 1 November 2015, the application date under the CAM NC.

ENTSOG is issuing auction calendar in January 2015 for the period March 2015 through February 2016, the period starting in March 2015 to October 2015 can be treated as a non-binding phase. In this auction calendar ENTSOG allows for deviations from the auction calendar dates which normally flow from the CAM NC provisions for the annual auctions for yearly capacity and for the annual auctions for quarterly capacity which are deemed relevant in the interest of network users. Given the importance of such product auctions to network users, account should be taken for when the original auctions dates coincide with the date of a nationwide (or entry/exit zone-wide) public holiday.

For the period starting in March 2015 to October 2015, ENTSOG hereby expressly disclaims all warranties and representations, whether express or implied, as to the auction calendar content and the use and reliability of the data contained in the auction calendar is strictly under the own risks of the user (network user or other stakeholder) who is responsible to verify the accuracy and completeness with the concerned TSOs.

Dates indicated for interruptible auctions must be considered as the European standard defaults, not preventing the possibility for respective firm auctions to continue in case still not closed on the days indicated for interruptible auctions starts. In these cases, the interruptible auctions will open the next possible day after the closing of the respective firm auctions (starting 8:00 am UTC winter time; 07:00 daylight saving time).

A copy of the auction calendar table in Excel format is available upon request. Please send your requests to: info@entsog.eu

The minimum obligation set via the CAM Regulation is for TSOs to offer Interruptible capacity the day ahead (DA).

TSOs may at their own discretion offer Interruptible capacity for durations longer than DA. This does not imply in anyway (nor does it set a precedence) for other TSOs to offer Interruptible capacity more than the minimum obligation prescribed under CAM.

^{*} winter time; 14:30 daylight saving time is applied

CAM NC AUCTION CALENDAR: WITH-IN DAY

> FIRM CAPACITY

Subject to capacity being made available, a within-day capacity auction shall be held every hour during gas day.

Each hour on the relevant gas day, capacity effective from the hour + 4 shall be auctioned as within-day capacity.

The first bidding round shall open directly on the next hour bar following the publication of results of the last daily product auction (including interruptible if offered).

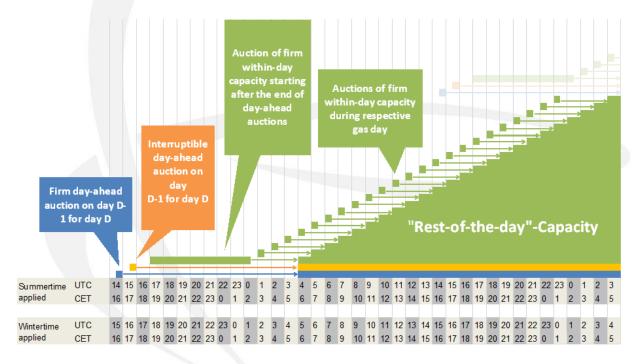

Each bidding round shall open at the start of every hour on the relevant gas day.

The duration of each bidding round shall be 30 minutes as of the opening of the bidding round.

The first bidding round closes at 01:30 UTC (winter time) or 00:30 UTC (daylight saving) before the gas day.

The last bidding round shall close at 00:30 UTC (winter time) or 23:30 UTC (daylight saving) on the relevant gas day.

The allocation of successful bids shall be effective from 05:00 UTC (winter time) or 04:00 UTC (daylight saving) on the relevant gas day.

> INTERRUPTIBLE CAPACITY

Within-day interruptible capacity shall be allocated by means of an over-nomination procedure.
