

Regional Coordination (ReCo) System for Gas

Network Codes and Stakeholder Engagement Workshop

Anton Kolisnyk

Adviser, System Operation

Agenda

- **ReCo System for Gas Objectives**
- **Revised SoS Regulation and ReCo**
- **ReCo Teams**
- **Functioning of ReCo**
- **Way forward**

Regional Coordination (ReCo) System for Gas – Main objectives

- **A broader vision of all gas flows entering the EU MS**
 - > European TSOs and EU aim to
 - enhance the level of **Security of Supply** in crisis situations
 - provide an **overview** of the main gas supply flows
- **Bridging the gap of non-existing international cooperation in a crisis situation**
 - > Install Regional Coordination Teams
 - > Provide toolboxes

Revised SoS Regulation and ReCo System for Gas

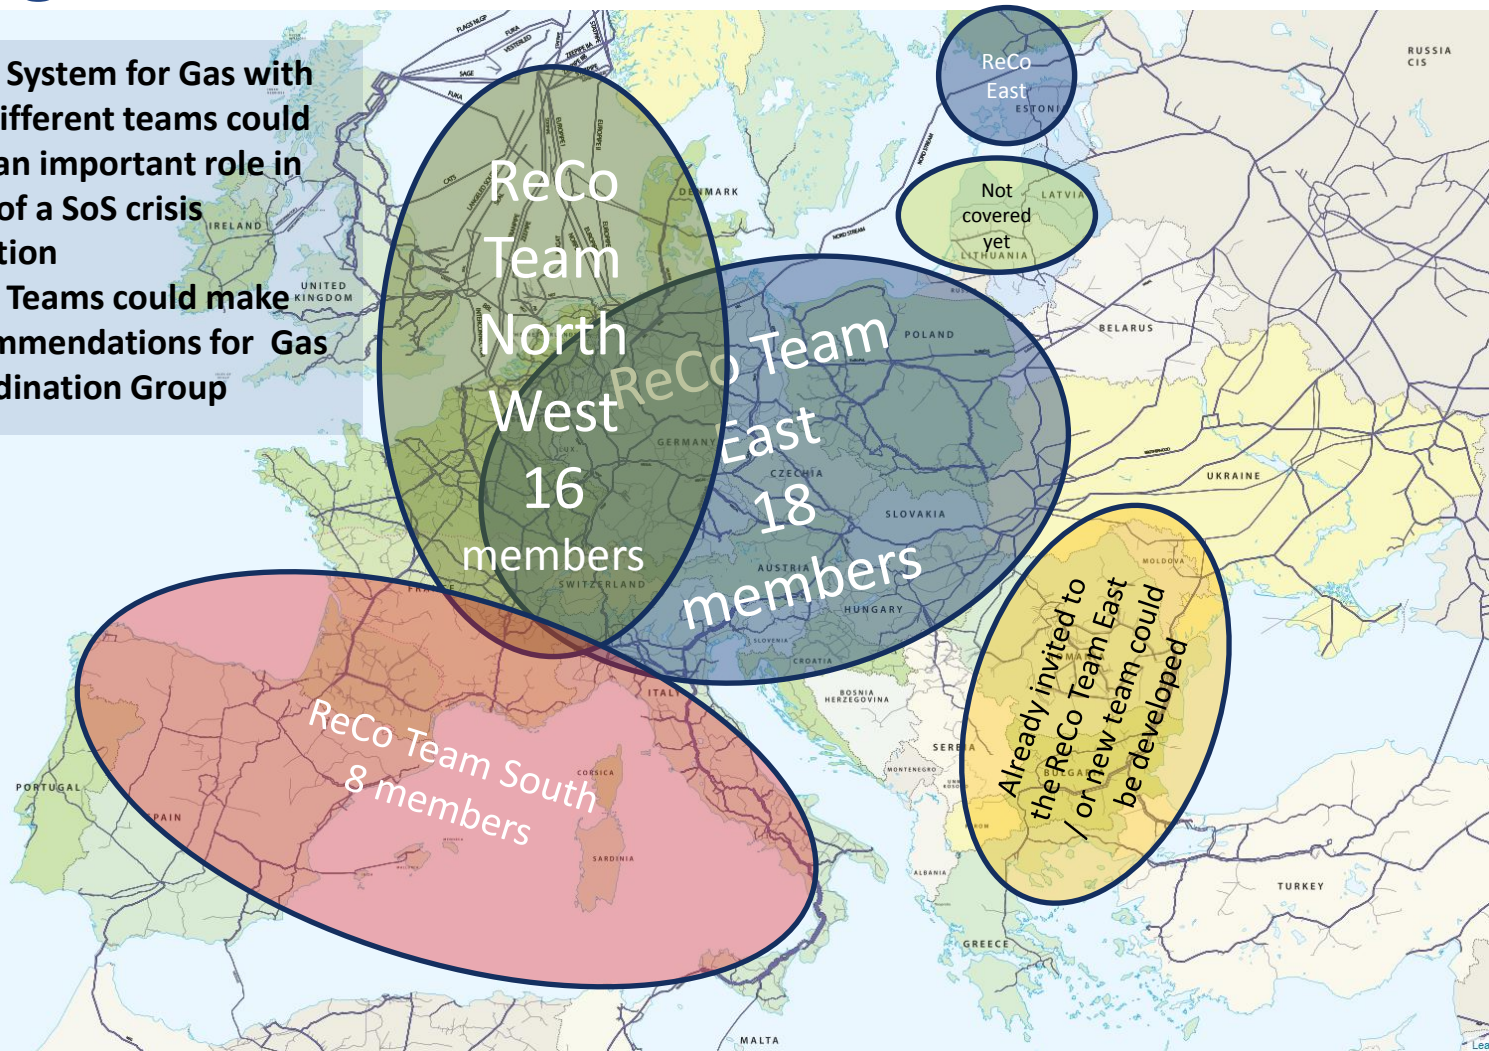

Article 3 Responsibility for security of gas supply

5a. In the event of a regional or Union emergency crisis, the transmission system operators shall cooperate and exchange information using the Regional Coordination System for Gas (ReCo System for Gas) where already established by ENTSOG . ENTSOG will inform the Commission and the competent authorities of the Member States concerned.

Regional Coordination Teams

- ReCo System for Gas with the different teams could play an important role in case of a SoS crisis situation
- ReCo Teams could make recommendations for Gas Coordination Group

30 TSOs are already involved in the ReCo Teams

Regional Coordination Teams

Aim

- avoid, prevent or mitigate negative impact of gas disruption in appropriate region in case of any technical or whatever reason
- to be well prepared to any possible crisis or negative situation

ReCo teams as a Tool

- Fast and reliable informing of TSOs which could be impacted about possible negative event
- Joint cooperation between TSOs, listening to each other and looking for the mutual and regional solutions

Result

- Wide view and detail information about possible negative situation
- Final mutual and regional decision which takes into account arguments and positions of all participating TSOs

Reginal Coordination (ReCo) Teams

Members

- Participation in the teams is open for all TSOs in the corresponding gas supply corridor

Facilitator

- Establishes the meeting in case of need
- Makes a communication exercise
- Is chosen on annual rolling basis

Coordinator

- The coordinator is chairing the ReCo Team whenever it comes together.
- Acts as the spokesman of the ReCo Team in order to provide first-hand information.
- By default this role will be allocated to the TSO initially calling the facilitator.

ENTSOG

- Organizes meeting explanations, presentations, ToRs, change of facilitator
- Provides WebEx tool for communication

Responsibility

- All TSOs taking part in the ReCo teams are acting in their own responsibility. They can't be forced to carry out any specific action. All agreed upon solutions and actions are executed on a voluntary basis only.

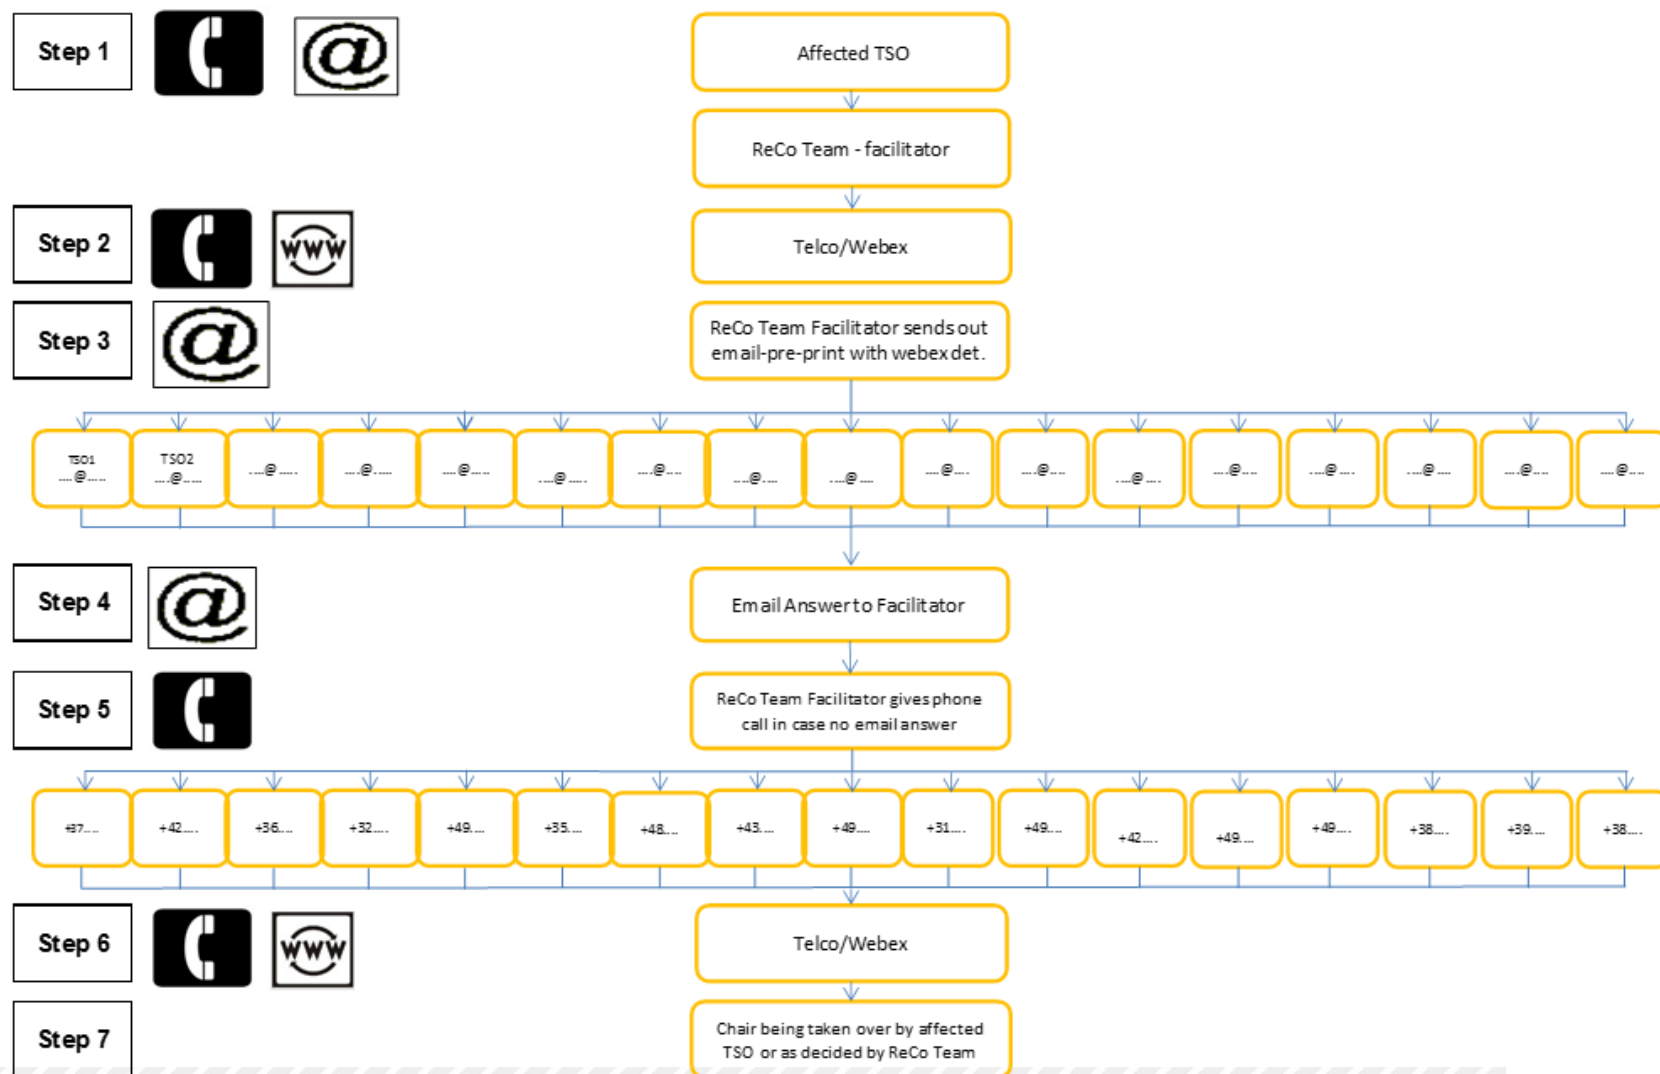

ReCo System for Gas Functioning

- **Guideline**
- **Email pre-print**
- **Facilitator for each ReCo Team**
 - Fixed telephone number
 - 24/7 reachability
 - Getting the ReCo teams members together in a short notice
 - Virtual room via webex
 - Discussing the event and looking for possible solutions
- **Toolbox**
 - Swaps
 - Re-directing of gas
 - Extra capacity
 - Operational Map
 - Incident classification scale
 - Etc.
- **Coordinator for each ReCo Team crisis meeting**

Communication Flowchart for ReCo Teams

Way forward

- ***Ensuring participation of all EU TSOs in the ReCo Teams***
- ***Developing tools to help TSOs in crisis events***
- ***Inviting non-EU TSOs to participate in ReCo Teams***

Thank You for Your Attention
