AS<sub>4</sub>

---

Business Process Excellence *for Energy Markets*

# Things to consider when implementing AS<sub>4</sub>

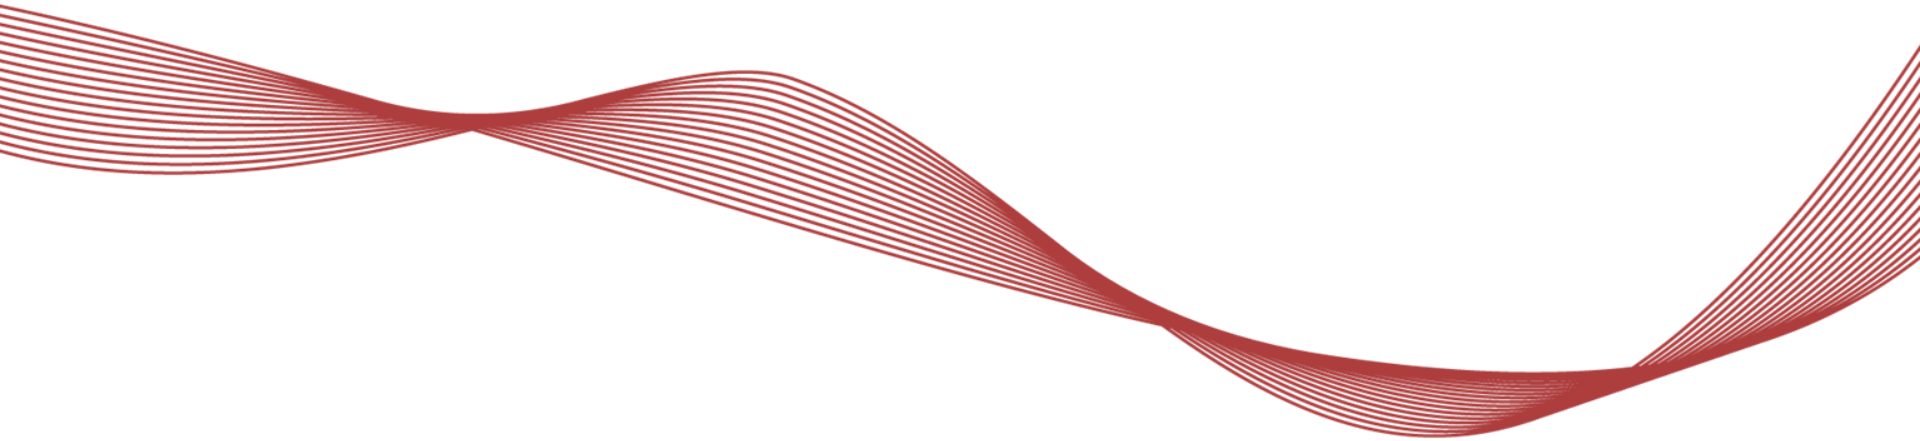

- Buy an AS<sub>4</sub> implementation to get the technical capability

- Enhance your communication master data for AS<sub>4</sub> parameters
  - Market communication system
  - If applicable also as part of customer self service portals

- Prepare for testing
  - AS<sub>4</sub> ENTSOG is a completely new protocol
  - Some incompatibility issues have to be expected

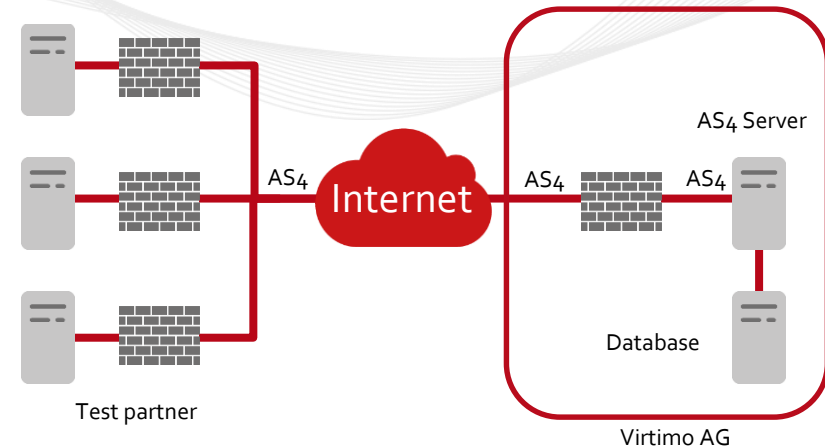

# Live demonstration

---

## Virtimo AS<sub>4</sub> Testbed

- Virtimo has set up an AS<sub>4</sub> testbed for interoperability testing
- Easy testing with other business partners
- Full service test offering – infrastructure, software, consulting & security
