

Overview

- "Status quo" in Austria in October 2017 (CBA-questionnaire)
- Extract of CBA-Results

Art 38 NC BAL as obligation for "TSO"

- ... within 2 years ... entry into force ... shall assess the costs and benefits of:
 - Increasing the frequency of information provision to network users
 - Reducing the related timelines of information provision
 - Improving the accuracy of the information provided
- ... specify the breakdown of costs and benefits among the categories of affected parties
- ... consult the stakeholders ... in cooperation with the distribution system operators where they are affected.
- ["Information provision" acc. to Art 32-37]
- 2 TSOs in Austria (Gas Connect Austria and TAG GmbH): common obligation and common CBA-procedure

Market Areas and System Administrators

Information provision

Information provision rules according to Art 32 NC BAL	Austria ☑
(1) Overall status of the transmission network in accordance with point 3.4(5) of Annex I to Regulation (EC) No 715/2009	Austria ☑ (available Linepack & Market Area Balance)
(2) Transmission system operator's balancing actions referred to in Chapter III ("balancing action" as definition in Art 3)	Austria ☑ (MAM-Report on the balancing incentive markups, MAM Balancing actions, MAM within-day balancing actions)
(3) Network user's inputs and off-takes for the gas day referred to in Articles 33 to 42	Austria ☑ (see slides 13-17)

Results concerning frequency

Is there a need for a higher frequency concerning provided information?

1 participant with "Yes":

- Report on the balancing incentive markups (Slide 9): "? 1/year?"
- Information concerning final allocations and final imbalances acc. to Art 37 (Slide 16):
 "2x (Intraday)" – "costs: 0"
- Allocation data in the log-in-area of the MAM-platform (Slide 17): "2x (intraday)" – "costs: 0"

8 23 November 2017 Common results CBA

Results concerning accuracy

Is there a need for improving accuracy concerning the information provision?

1 participant with "Yes":

 Information concerning final allocations and final imbalances acc. to Art 37 (Slide 16): "of missing or inconsistent data" – "costs: 0"
