

Press Release

ENTSOG publishes a list of definitions used in relation to the gas network codes

(Brussels, 21 October 2016, PR0118-16) **ENTSOG publishes a glossary of collated definitions. The purpose is to establish an informative overview of the network code vocabulary for the gas industry.**

The glossary of definitions reflects the situation as of October 2016 and outlines the definitions and their corresponding source documents in clearly arranged tables. The glossary also takes into account the Tariff Network Code which received the favourable opinion of the Gas Committee on 30 September 2016 as well as the new version of the Capacity Network Code which received the favourable opinion of the Gas Committee on 13 October 2016. The glossary is intended to be for information purposes only.

Jan Ingwersen, ENTSOG General Manager, said, *“Although the document was prepared for internal use, we think that the publication on the ENTSOG website will be useful for the industry and all participants of the gas market.”*

The glossary of definitions is available at:

<http://entsog.eu/publications/glossary-of-definitions#GLOSSARY-OF-DEFINITIONS>.

Should you require any further information please contact Irina Oshchepkova (+32 2 894 5107, irina.oshchepkova@entsog.eu).

Editorial notes

- > ENTSOG was founded on 1 December 2009 in line with Regulation (EC) 715/2009. The current number of Members, Associated Partners and Observers can be found [at this link](#).
- > In line with Articles 6, 7 and 8 of the Regulation (EC) 715/2009, ENTSOG has the task of formulating network codes in a number of areas and of adopting various communications: a non-binding community-wide Ten-Year Network Development Plan on biennial basis; Winter and Summer Supply Outlooks; common network operation tools; recommendations relating to the coordination of technical cooperation between community and third-country-TSOs; annual work programmes and annual reports.
